

Solution énigme des triangles : nombre de triangles

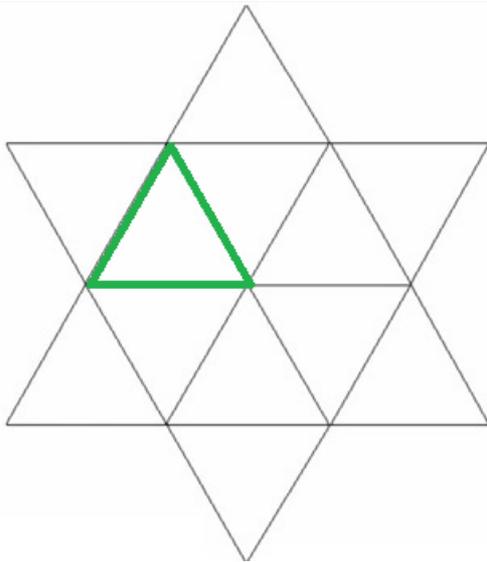

P.S : 4 petits triangles et 1 moyen soit **5 triangles**

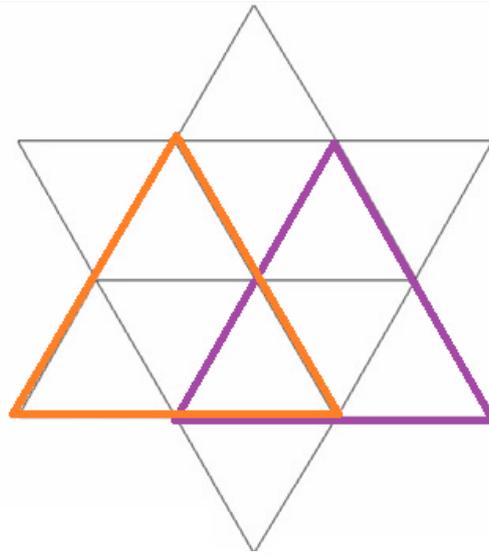

MS : 9 petits, 3 moyens et 1 grand soit **13 triangles**

<p>9 petits</p>	<p>1 grand</p>
<p>3 moyens</p>	<p>3 moyens</p>

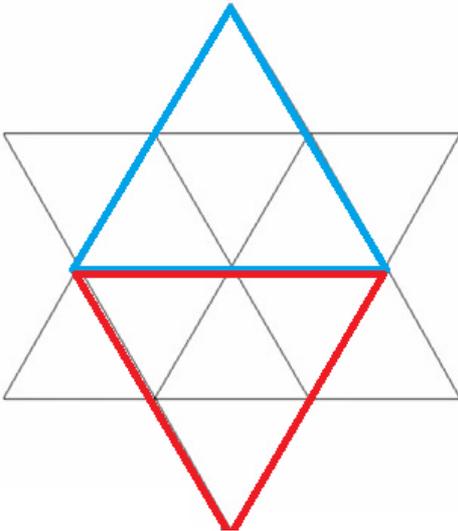

GS : 12 petits, 6 moyens et 2 grands soit 20 triangles

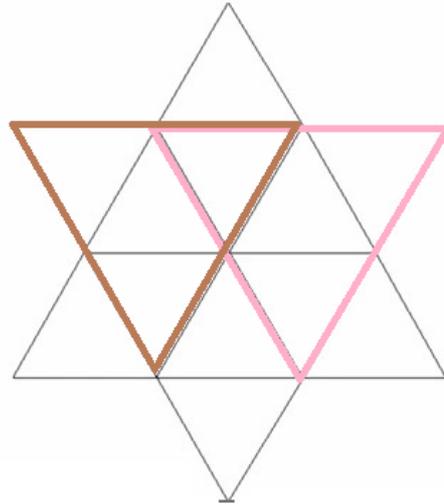

12 petits : 1 petit triangle vert et 11 autres

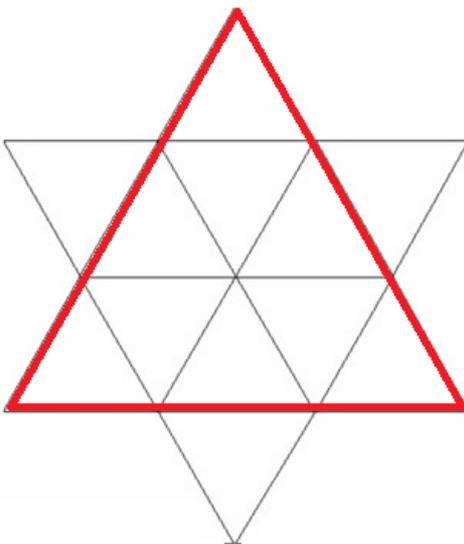

6 moyens : en voilà 2...

..puis 2 autres triangles moyens...

...et encore 2 autres triangles moyens

2 grands triangles
